

# 2016 PERFORMANCE RXT-X<sup>®</sup> aS<sup>™</sup> 260

The only offshore riding watercraft with a suspension system, the RXT-X aS 260 lets you manually adjust the suspension to dictate how it will respond to water conditions. It provides more than just comfort – it lets you stay focused, relaxed and ride longer with less fatigue. Now in conjunction with our Ergolock<sup>™</sup> seat and fully adjustable handlebar, this is performance riding that prepares you for large bodies of water.

NEW Lava Red & Monolith Black Satin

## RIDER CAPACITY

Weight capacity..... 500 lb / 227 kg

## DIMENSIONS

Fuel capacity..... 18.6 US gal / 70 l  
Length..... 139.2" / 353.5 cm  
Width ..... 48.2" / 122.4 cm  
Weight (dry)..... 1,028 lb / 466 kg  
Storage capacity ..... 16.6 US gal / 63 l

## ENGINE

Type..... Rotax<sup>®</sup> 1503 HO 4-TEC<sup>®</sup> engine  
Intake system..... Supercharged with external intercooler  
Displacement..... 1,494 cc  
Cooling..... Closed-Loop Cooling System (CLCS)  
Reverse system ..... Electronic iBR<sup>®</sup>  
Starter..... Electric  
Fuel type ..... 87 octane – minimum  
91 octane – recommended

**iTC / iBR / aS / S<sup>3</sup> / CLCS / ECO**

## HULL

Type..... S<sup>3</sup>  
• Longer platform  
• Rough water inspired deep-V hull  
• Stable and predictable

ADJUSTABLE SUSPENSION (aS)

ERGOLOCK SEAT

ADJUSTABLE TRIM TABS

BOW STABILIZERS

TILT AND ADJUSTABLE  
ERGONOMIC STEERING (A.E.S.)

SEA-DOO CARRIER DRY STORAGE BAG  
BY OGIO<sup>®</sup> (OPTIONAL)

# RXT-X aS 260

## ENGINE

1,494 cc four-stroke, Rotax with four valves per cylinder	Supercharged, external intercooled Rotax 1503 HO 4-TEC engine provides reliable high performance in fresh or salt water, increased torque at low RPM, optimized power at all RPM levels and throttle positions.
iTC™ (Intelligent Throttle Control) system	Operating electronically, this advanced throttle system starts you in neutral for easier dockside starts. It also features an activity-specific Touring, Sport and ECO™ modes that can all be set to accommodate your riding style. The result is a more responsive, more intuitive ride.
iControl® Learning Key®	The programmable Learning Key allows you to limit the performance of the PWC based on rider skill level.
D-Sea-Bel™ system	Combines a series of resonators and vibration-absorbing components to make Sea-Doo watercraft some of the quietest on the water.
Closed-Loop Cooling System	Uses coolant to keep the engine running at the ideal temperature, much like a car's radiator. Also keeps out corrosive saltwater and debris.

## FEATURES

iControl	The "Brain" that integrates and controls all systems to create the best possible ride.
S <sup>3</sup> Hull®	Stepped, stable & strong. The stepped design reduces drag and keeps you glued to the water.
Touring mode / Sport mode	Offers a choice between two throttle responses for different riding styles. Touring mode is the default setting offering a more progressive acceleration curve for a more confident ride – ideal for cruising and 2-up riding. Sport mode can be easily activated using the Sport button. It provides all acceleration performance for a more aggressive throttle response.
ECO mode	This iTC function automatically determines the most economical power delivery and sets the optimal RPM for greatest fuel economy.
Ergolock seat	Seat with narrow profile and knee support that lets people sit in a more natural position and lock in with their legs for more control and less upper body fatigue.
High-performance electric VTS™ (Variable Trim System)	Provides pre-set positions for quick settings when adjusting boat trim, maximizes acceleration and high-speed stability.
Reboarding platform with rear storage	Easy access to battery, fuses and storage.
Watertight, removable storage bin	Provides dry storage for luggage and necessities with easy access.
Tilt steering	4 adjustable steering angles for maximum ease and comfort.
Interactive Multifunction Digital Information Center	VTS preset, Fuel consumption instant & average, Fuel level, Tachometer, Speedometer, Hour meter, Compass, Clock, Touring mode, Sport mode, ECO mode, F-N-R indicator and more.
RF D.E.S.S.™ Key	With radio frequency technology and a ball-and-socket design, the Digitally Encoded Security System (D.E.S.S.) key provides riders with easy and quick starts every time.
Off-Throttle Assisted Steering (O.T.A.S.™)	Provides the operator with additional steering effect in off-throttle situations for greater maneuverability.
Handlebar with NEW palm rest	Reboarding handles on rear platform
Hinged seat	Rear grab handle
Quick latch fuel filler design	Seat strap
Bumpers	Dual drain plugs
Wide-angle adjustable mirrors	Engine access cover (removable)
Ski tow eye	Flush kit
Front splash deflector	Emergency floating lanyard
Footwell carpets with Sea-Doo logo pattern	Operator's guide, instructional video and booklet
Swim platform carpet with Sea-Doo logo	

## PROPULSION SYSTEM

iBR (Intelligent Brake & Reverse) system	First and only true brake on a watercraft recognized by the U.S. Coast Guard for improving boating safety since 2009. Now in its 2 <sup>nd</sup> generation, the intuitive and improved iBR allows you to stop close to 160 feet sooner <sup>1</sup> for greater peace of mind. All with the squeeze of a lever. And with its electronic reverse, it gives you a level of maneuverability that makes docking easier.
Stainless steel impeller	Delivers improved acceleration, higher top speed and less cavitation.

## X-PACKAGE

X-Coloration seat	Race-inspired design for comfort and great looks.
X-Handlebars with A.E.S.™ (Adjustable Ergonomic Steering)	The only fully adjustable handlebar in the industry. With A.E.S. the rider can adjust the handlebar width and grip angle for a fully customized ride.
X-Gauge with boost indicator	Shows the boost pressure in real-time from minimum (idle) to max boost pressure (open throttle) at all times so the rider knows the engine load condition.
Adjustable rear sponsons	An efficient design that improves lateral stability. 3-position adjustable for your skill level and riding environment: higher for a more playful freeride experience or lower for more aggressive turning. Winglet feature enhances lean angles during turning.
Additional gauge functions	Time / Distance to empty, Top / average speed / RPM, Lap timer, Engine temperature.

## OFFSHORE KIT

aS (Adjustable Suspension)	Allows the hull to move independently of the upper deck, isolating rider and passenger from the impact of rough water. This adjustable suspension brings a racing-inspired system with 5 inches of travel that provides maximum performance and comfort in rough water conditions. Two ways to adjust the suspension: Manual compression damping adjustment via the nitrogen remote reservoir in the glove box, and suspension spring also easily adjustable with tools under the seat.
Adjustable trim tabs	Easily adjustable, these tabs limit bow rise and improve parallelism to water. Also increase tracking in rough water conditions and provide more tunability.
Bow stabilizers	Provide lateral stability and improve steering in rough water conditions as well as anti-dive to reduce bow diving.

## OPTIONS

Removable wakeboard rack	Sandbag anchor
Ski mode	Safety kit
Depth finder	Bilge pump
Fold-down reboarding step	Fire extinguisher
Speed Tie™	Fender
Removable dry bag for front storage	Sea-Doo Move trailer
Glove box organizer	Watercraft cover

## WARRANTY

BRP limited warranty covers the watercraft for one year.
